Re: Item 16, Agenda February 3, 2015.  
Clarzan Developments, File # Z13027

Please be advised that Clarzan wishes to amend the above captioned application as follows. We wish to revise our currently proposed lots 1 and 2 from 50' front footage to 100' front footage.

Although this was never an original intent, this temporary revision to our current application will allow Clarzan to meet certain financial obligations to its financial lenders and further mitigate potential losses, while private matters are resolved between Clarzan and Di Nardo regarding the disposition of this lot. Thank you for your consideration.

Sincerely

John  
Director - President
