<p>2022-06-15 13:40:25 -0400</p> <p>JLD</p> <p>CATEGORY</p> <p>This street/area could be improved</p>	<p>Not just Keele, but any major street that gets "upgraded" to have curbs is a Problem - if there are curbs, there is no where for a cyclist to go if there is urgent need to get away from traffic. Switch to "mountable" curbs (D), away from the vertical curbs, especially for major roadways. Also, whenever a street has been switched from gravel shoulders to curbs, the road is made more narrow, with no paved, flush shoulder for cyclists before the curb. Stop making roads worse, when "improving" them.</p> <p>Address: 10246 Keele Street, Vaughan, Ontario L6A 3Y9, Canada</p> <p>http://haveyoursay.vaughan.ca/completestreets/maps/which-of-vaughan-s-streets-could-be-improved-for-the-safety-of-all-street-users-2?reporting=true#marker-89772</p>

Which of Vaughan's streets could be improved for the safety of all street users?

<p>2022-06-17 00:03:30 -0400</p> <p>Jared</p> <p>CATEGORY</p> <p>This street/area could be improved</p>	<p>Turning left from Dundurn Cr onto Atkinson Ave is unsafe because the westbound cars on Atkinson drive extremely fast. Since you cannot see the cars until they come around the bend, you are forced to complete the left turn very quickly. It's really only a matter of time until someone is seriously hurt or killed here. Additionally, because of this problem, a cyclist certainly couldn't safely attempt this left turn so instead, they generally just ride on the sidewalk down atkinson, which is dangerous for themselves and pedestrians. There is no reason why Atkinson cannot become more of a complete street. We can put in place common sense traffic calming and make this area much more pleasant to travel through.</p> <p>Address: Atkinson Avenue, Vaughan, Ontario L4J 7A1, Canada</p> <p>http://haveyoursay.vaughan.ca/completestreets/maps/which-of-vaughan-s-streets-could-be-improved-for-the-safety-of-all-street-users-2?reporting=true#marker-90266</p>

Bike lanes along Langstaff and Kipling, in a residential area feeding into shopping destinations. The result = slower traffic; cycling (physical exercise) encouragement. The broad paved corridor is a heat island that could be better planted to make a more enjoyable pedestrian realm (more health benefits) and cooler for motorists and cyclists alike!</p> <p>Address: Langstaff Road, Vaughan, Ontario L4L 6S8, Canada</p> <p>http://haveyoursay.vaughan.ca/completestreets/maps/which-of-vaughan-s-streets-could-be-improved-for-the-safety-of-all-street-users-2?reporting=true#marker-91777</p>

The shoulder is not fully paved so pedestrians end up walking close to the road. The other day there was a wheelchair user and i was so scared for him when I drove by. The city wants us to walk to stores and use transit more, and high school student needing to take transit from Dufferin can't get there safely. Please put a barrier or sidewalk before someone gets hit/dies.</p> <p>Address: 9605 Crimson Forest Drive, Vaughan, Ontario L6A 4S6, Canada</p> <p>http://haveyoursay.vaughan.ca/completestreets/maps/which-of-vaughan-s-streets-could-be-improved-for-the-safety-of-all-street-users-2?reporting=true#marker-91867</p>
