Please join us on February 8, 2018 to review and comment on the proposed streetscape design along Islington Avenue between Major Mackenzie Drive and Pennon Road.

Project Description:

The Islington Avenue Streetscape Phase 1 project represents a unique opportunity to provide a context sensitive village gateway and “natural landscaped streetscape area” within the Kleinburg-Nashville Heritage Conservation District. The streetscape and gateway design will aim to reinforce and enhance the area’s overall heritage conservation goals, be functional and able to thrive within today’s demanding environment, be ecologically and economically viable, capture the non-formal landscape characteristics of country roadsides, and highlight the importance of the Arts in this community. As the gateway to Kleinburg, this streetscape will respect, enhance and be a tribute to Kleinburg’s rich built, natural and cultural heritage.
